TRANS AFRICA RAILWAY  
CORPORATION (TARC)

## WELCOME TO TARC

Connecting African Capitals and Commercial  
Centers through a High-Speed Railway Network

TRADE ACCELERATION BY REGIONAL CONNECTIVITY

# WELCOME to **TARC**

Trans Africa Railway Corporation Limited (TARC) is a Pan-African Rail Infrastructural Development Company registered and incorporated under the Laws of Ghana in terms of Companies Act 992 of 2019. We have an accumulated appetite and commitment to build a vibrant railway sector connecting African capitals and commercial centers through High-Tec High Speed Railway Network geared towards the realization of the African Union Agenda 2063 key priority flagship programme. In an effort to fast-track and catch up with the lapsing of the Five Ten Year Implementation Plan (FTYIP) series of the agenda (2013-2023) inculcated in the fifty year horizon, TARC has embarked on a rigorous venture in making the African. Dream come true by putting provisional setups in the Infrastructural and financial models approached towards the implementation of the Integrated High Speed Rail Network (IHSRN) Continental Investment Initiative. This has been done in harmonization with the Africa Continental Free Trade Area (AfCFTA) operationalization.

## PARTNERS

Trans Africa Railway Corporation (TARC) Ltd aims at connecting African Capitals and Commercial Centers through a High-Speed Railway Network, facilitating the movement of goods, factor services and people as well as reducing transport costs and relieving congestion of current and future systems through increased rail connectivity. whatever you're financing, it's easy to lean on us

## OUR OFFERS:

- ◆ A high speed railway network
- ◆ Connecting capitals to capitals, operating from country to country
- ◆ Ensuring that cargo runs on the same tracks
- ◆ Ensuring that each country has the opportunity to operate their own railway on TARC tracks(within countries only)

As you may be aware, the benefits of this endeavor for AU regional economic communities are enormous and TARC is committed to supporting effective railway regulations in Africa in line with the AU agenda.

## TARC PROJECT ALIGN WITH 2 OF THE 15 FLAGSHIP PROJECTS THAT WILL BE KEY TO UNTAP NEW LEADS AND BUSINESS WHICH ARE:

### African Continental Free-Trade Area (AfCTA)

The AfCTA aims to significantly accelerate growth of intra-Africa trade and use trade more effectively as an engine of growth and sustainable development by doubling inter Africa trade, and strengthening Africa's common voice and policy space in global trade negotiations.

### Continental High-Speed Train Network

The Africa Integrated High-Speed Railway Network Project is designed to connect Afri-can capitals, economic and other industrial hubs as well as major tourism locations with appropriate high-speed rail technology and other complementary electricity/power, and ICT broadband infrastructure and services.

## TARC IMPLEMENTATION STEPS

\*HSE Health and Safety Environment

- Trade
- Acceleration
- by Regional
- Connectivity

## OUR MISSION

*Trans Africa Railway Corporation (TARC) Ltd aims at connecting African Capitals and Commercial Centers through a High-Speed Railway Network, facilitating the movement of goods, factor services and people as well as reducing transport costs and relieving congestion of current and future systems through increased rail connectivity. Building the Africa we want with a 100% African tech. giant.*

Promoting both national and global diversity to improve sustainability.  
 Engaging in risk-response-resilience movement for humanitarian assistance.
